KUTAY AYGÜN

-Software Developer
PHP Laravel Dev.

PERSONAL HISTORY

My name is Kutay Aygün, and I am 21 years old. I actively engage in research and project development to enhance my value in the field of Full-Stack Development. I also have experience in robotics programming and cybersecurity. I consider myself an ambitious and determined team leader, successful in managing projects within a company. I have served as a Unit President in some NGOs, and I continue to volunteer actively. I have a social personality and enjoy exploring individuals and leaving positive impacts on their lives. I also have a passion for reading books and the gaming world, which I coordinate. I am currently actively pursuing English education, and I never neglect learning languages and developing myself through interactions with new people.
I aim to transfer the knowledge, skills, and work discipline I have acquired throughout my educational journey to contribute to your company's goals and achievements. I aspire to work in a dynamic environment where I can constantly improve myself.
